MANAGEMENT DEVELOPMENT CENTER
Organizing on
Reverse Logistic and Supply Change Management (MDP)

Date: Sunday 15th July 2012
About MAEER Trust - The Parent Group

Maharashtra Academy of Engineering Research (MAEER), Pune, established in year 1983 is a well known education trust with 64 Institutes delivering KG to PG education with over 50000 students. The twenty-six years journey of MAEER has been continuous process in the pursuit of quality and excellence. MAEER has spectacular campuses spread across the entire region and have been efficiently conducting multi-disciplinary University approved and autonomous academic programs in Engineering, Management, Pharmacy, Medicine, Polytechnic etc. The Institution which is also known as the MIT Group of Institutions provides rigorous, scholarly environment with strong cross-disciplinary links supporting world-class education, research technical and management application. With a team of dedicated and committed academicians and scholars, MAEER aims at contributing to the industrial and economic growth of the society and help realize the dreams and aspirations of the prospective students.

MIT College of Management - (MITCOM)

MITCOM has pioneered quality management education in the sunrise sectors in India. The tremendous growths in these sectors have resulted in the requirement of trained workforce in the industry. Hence, MAEER’s never ending desire for excellence has resulted in the creation of a world-class center for Excellence.

MIT College of Management (MITCOM), Pune is India’s Sectoral B School under the aegis of MAEER’s MIT Group of Institutions. MIT College of Management has successfully launched its Post Graduate Programme (PGP) & MBA in Retail Business Management (RBM), Agri and Food Business Management (AFBM), Project, Construction and Infrastructure Management (PCIM) and Forestry and Environment Management (FEM) and General Management along with the dual specialized in Marketing, Human Resource, Finance and Operations.

MITCOM is proud to have the most qualified and experienced faculties, an industry support and state-of-the-art infrastructure to create the management professionals. It has developed unique learning initiatives, which have come to be the hallmark of the Institute. These initiatives are the outcome of elite Board of Studies with members from various well known industries and academicians with their wide experience in the field of management education.

MITCOM - MDC

Management Development Programme (MDP) has been introduced to develop business, management and professional skills for all the professions. These programmes are designed in consultation with employer that are focusing on those skills which are recognized as important for employees working in the public, private or voluntary sector.

Increasingly, organizations are seeking flexible employees who can adapt to change, are effective in operating in interdisciplinary teams, have confidence in presenting and have well-developed executive skills to align with the organization.

Our MDC aims to provide as many as contemporary learning tools as are required by the market.

As we look ahead into the next century leaders will be those who empower others

- Bill Gates
Introduction to Faculty for MDP -
Facilitator has done his Mechanical engineering from IIT Kharagpur, and is pursuing fellowship from XLRI, Jamshedpur.

He has over 26 years of industry experience working as design engineer to project manager for capital projects in Tata group of companies. He has worked with experts from McKinsey & Co. through their structured methodology on improving 'opex and capex excellence'. He is trained as six-sigma resource as well as in TOC/CCPM implementation and has practical experience of deployment of the same in Tata organizations. He is an external assessor in Tata Business Excellence Model (TBEM), a Business Excellence model based on the Malcolm Baldridge National Quality Award.

As ‘CEO’ of the Team from Tata Steel, became National Champion in the Business Simulation Games, conducted by All India management Association (AIMA). He participated in the Regional Management Games in Singapore Institute of Mgmt. as National Champion from India.

He has professional affiliation with Council of Supply Chain Management Professional (CSCMP) USA, Institution of Engineers (India), Indian Institute of Material Management (IIMM) and XLRI.

He has research publications in journals and has teaching involvement with B’schools such as XLRI and Praxis.

His research interest / teaching areas include Logistics & Supply Chain Management, Closed Loop Supply Chain, Business Excellence through Total Quality Management, Capital Project Management, Six-sigma Methodologies, Services Operation Management and Theory of Constraints (ToC).

He is currently associated with XIM, Bhubaneshwar as full time teaching resource in the area of Operations Management and Decision Sciences.

Mr. Arun Paul
TATA STEEL, and Professor in XIM - Bhubaneshwar and associated with XLRI Jamshedpur

ABOUT THE PROGRAMME:
This MDP deals with decision making in the context of purchasing, logistics, distribution, ware-housing and inventory management. With increasing competition, organizations are forced to become more customer responsive. Over the short to medium run, fast, flexible and cost-effective systems of purchasing, inbound logistics, outbound logistics, distribution, retailing and after-sales support to customers are imperative to satisfy customers and increase market share.

OBJECTIVES:
- Discussion on reverse logistics (RL) or ‘Closed loop’ supply chain (CLSC)
- The drivers and actors of reverse logistics & supply chain mgmt
- Architecture of reverse logistics
- The size of reverse logistics
- Challenges for RL

Innovation distinguished between a leader and a follower
- Steve Jobs
Who should attend?
Executives in the materials, planning, manufacturing, marketing, sourcing, third-party logistics provider, supply chain, outsourcing and information technology.
Organisations, that want to leverage their supply chain practices as a competitive weapon will benefit from the course. Companies that are in major supply chain restructuring mode will benefit by sending multiple participants for the programme.

Pedagogy:
- The pedagogy will be a mix of discussions, case studies and hands-on sessions.
- Each participant shall be provided with a CD comprising of the key notes, faculty presentations, and other related study material.

DATE: Sunday, 15th July 2012  Time: 10 am - 5 pm
